### Projects

**INTERIOR DESIGNING (frontend)** - 28/08/2022 to 2/09/2022

Designed a website that displays various interior designing services available. It filters out the best Interior Designing service available in the market according to the qualities we mention in the website.

I designed this website using HTML5, CSS and Bootstrap.

**TRANSPORTATION SERVICES (frontend)** - 17/11/2022 to 23/11/2022

Designed a website that displays various transportation services available. It filters out the best transportation service available in the market according to the distance, speed of delivery, expenses.

I designed this website using HTML5, CSS and Bootstrap.

**GIRLS HOSTEL MANAGEMENT SYSTEM (fullstack)** - 3/03/2023 to 8/03/2023

As a part of PROJECT SPACE program organized by Technical Hub at our college. I was Team Lead of the team Mind Units and we worked on this project for around 20hrs a day for a week.

we developed both frontend and backend functionalities in this website.

we used React.js framework, HTML, CSS web languages, MongoDB database and Vs code as the tool for developing this project.

### Internships

**FULL STACK INTERN - Technical Hub (17-07-2022 to 17-11-2022)**

During the first three months, I was trained on the frontend languages and during the last month I developed 2 projects mentioned above using frontend languages.
